Supplies Needed:

20” long piece of 20/22 ga
round wire

Round Nose Pliers
Nylon Jaw Pliers
Wire Cutters
Bail Making Pliers

- Measure wire to 20” and flush cut end.
- Using Round Nose Pliers round over the end on the largest barrel of your Round Nose Pliers.
- Using your fingers bring the length of wire over and around the barrel of the pliers.

- Your end should look like the photo above.
- Shape with wire into a circle as shown keeping the loop you just made facing left.
- Using Round Nose Pliers start to shape the other end of the wire into a graceful “J” shape.
- Refine shape and hammer with rawhide hammer lightly.
